SEATING SYSTEMS

System Solutions for Seating Applications

DEWERTOKIN TECHNOLOGY GROUP

DewertOkin Technology Group Ltd. is a subsidiary of Phoenix Meccano Group in Switzerland. Its two brands, Dewert and OKIN, are originated in North Rhine-Westphalia, Germany, counting over 40 years of history. With 5 production bases in Asia-Pacific and Europe, and a total of nearly 3,000 employees, DewertOkin provides integrated hardware and software solutions for Smart Home, Smart Healthcare, Smart Office and other scenarios.

- Smart Manufacturing
- Production Real-time Traceability
- Global Supply Chain
- Fast Delivery Guarantee

ONE-STOP SOLUTION FOR SMART FURNITURE

Under the brand OKIN you can find a wide range of products for smart furniture (such as motion upholstery, massage chairs, theatre seating, recliners and adjustable beds) and adjustable office desk and chair systems. Whereas the brand Dewert offers high performance products for medical applications (such as medical and nursing beds).

The first in the industry to propose a One-stop Smart Solution concept, our company serves over 1/5 of the world's smart furniture manufacturers and is the preferred supplier of many world-class brands. With a presence in over 28 countries and regions around the world, DewertOkin is a true industry leader.

Over 40 years of experience

Over 40 years focusing on the development and innovation of One-stop Smart Solutions. 5 innovative R&D centers around the world with post-doctoral workstations as the core. Over 1,500 patents, including more than 900 patents for inventions.

- In May 2021, we set up the first high-level national laboratory in the industry accredited by China National Accreditation Service for Conformity Assessment (CNAS).
- Awarded the National High-tech Enterprise Certificate & National IP Advantage Enterprise, and is the main drafting unit of the national light industry and Zhejiang manufacturing group standards.
- Approved by authoritative certification institutions.

System Solutions for Smart Seating

System Solutions for Manual Recliner

System Solutions for Power Recliner

Our seat mechanisms have passed the test for

25000 Life Cycles 350 Lbs

9011DN Zero Gravity (Power)

Metal-to-Floor

- 1. Zero Gravity position simulates the absence of gravity in the space
- 2. The legs are slightly higher than the heart to reduce the pressure on the body and achieve extreme comfort
- 3. Large diameter crossbar and long-lasting rivet joints
- 4. KD back brackets allow easy back removal for handling and transportation
- 5. Available in standard and custom sizes

9001D (Power)

Metal-to-Floor

- 1. The backrest leans completely against the wall, with zero distance
- 2. Unique backrest design prevents clothes from pulling and provides better lumbar support
- 3. Ingenious patented design to prevent the deformation
- 4. Large diameter crossbar and long-lasting rivet joints
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Available in standard and custom sizes

9713 / 9713D (Manual / Power)

- 1. 9713 (Manual) and 9713D (Power) versions with standard installation processes
- 2. Ingenious patented design to prevent deformation
- 3. Wood frame interchangeable with Rocker / Glider / Lift Chair series
- 4. Large diameter crossbar and long-lasting rivet joints
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Available in standard and custom sizes

9713DX Quick-install (Power)

Metal-to-Floor

- 1. 9713DX Quick installation design, higher efficiency
- 3. Ingenious patented design to prevent deformation
- 4. Wood frame interchangeable with Rocker / Glider / Lift Chair series
- 5. Large diameter crossbar and long-lasting rivet joints
- 6. KD back brackets allow easy back removal for handling and transportation
- 7. Available in standard and custom sizes

9145D Low Seat True Zero-wall (Power)

- 1. The backrest leans completely against the wall, with zero distance
- 2. Unique backrest design prevents clothes from pulling and provides better lumbar support
- 3. Seat height compression design, reduced by 50mm
- 4. Large diameter crossbar and long-lasting rivet joints
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Available in standard and custom sizes

905 / 906 Rocker (Manual)

Metal-to-Floor

- 1. Ingenious patented design to prevent deformation
- 2. Wood frame interchangeable with Zero-wall / Glider / Lift Chair series
- 3. Large diameter crossbar and long-lasting rivet joints
- 4. KD back brackets allow easy back removal for handling and transportation
- 5. Cable/Handle/Lever available as activating options
- 6. Available in 7 standard and custom sizes

907 / 907D Glider (Manual / Power)
908 / 908D Glider (Manual / Power)

- 1. Available in Power (907D / 908D) and Manual (907 / 908) versions
- 2. Ingenious patented design to prevent deformation
- 3. Wood frame interchangeable with Zero-wall / Rocker / Lift Chair series
- 4. Large diameter crossbar and long-lasting rivet joints
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Cable / Handle / Lever available as activating options for manual versions
- 7. Available in 7 standard and custom sizes

5216D / 5217D Zero Gravity (Power)

Wood-to-Floor

- 1. High-leg (5216D) and Low-leg (5217D) Zero Gravity recliners
- 2. Zero Gravity position simulates the absence of gravity in the space
- 3. The legs are slightly higher than the heart to reduce the pressure on the body and achieve extreme comfort
- 4. New linkage drive design provides a stable and smooth movement
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Available in standard and custom sizes

5198D True-Zero Wall (Power)

- 1. Suitable for high-leg armchairs and sofas
- 2. The backrest leans completely against the wall, with zero distance
- 3. Unique backrest design prevents clothes from pulling and provides better lumbar support
- 4. New linkage drive design provides a stable and smooth movement
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Available in standard and custom sizes

5368 / 5368D Low-leg (Manual / Power)

Wood-to-Floor

- 1. Suitable for low-leg armchairs and sofas
- 2. Manual (5368) and Power (5368D) versions available
- 3. Spring loaded footrest enhances safety throughout the movement.
- 4. New linkage drive design provides a stable and smooth movement
- 5. KD back brackets allow easy back removal for handling and transportation
- 6. Available in standard and custom sizes

5810D High-leg (Power)

- 1. Suitable for low seat high-leg armchairs and sofas
- 2. Increased depth and compressed height seat design
- 3. New linkage drive design provides a stable and smooth movement
- 4. KD back brackets allow easy back removal for handling and transportation
- 5. Available in standard and custom sizes

516DN High-leg (Power)
517D Low-leg (Power)

Wood-to-Floor

516DN High-leg (Power)

517D Low-leg (Power)

1. Available in High-leg (516DN) and Low-leg (517D) versions
2. Compressed design for lower seat height
3. New linkage drive design provides a stable and smooth movement
4. KD back brackets allow easy back removal for handling and transportation
5. Available in standard and custom sizes

7550 (Manual)

1. Push the armrest and lean back to open
2. Self-balancing design, the backrest can be stopped at any position
3. High-leg design
4. Extended split footrest for more comfortable leg support
5. KD back brackets allow easy back removal for handling and transportation

6111D (Single Motor)
6311D (Dual Motor)

Lift Chair

6111D (Single Motor)

6311D (Dual Motor)

6321D: with extended split footrest
6511D: with casters

1. Smooth lifting process
2. Wood frame interchangeable with Rocker / Lift / Glider series
3. KD back brackets allow easy back removal for handling and transportation
4. Available in sizes 0/-1/-2/-3/-4

1. Independent backrest design, close to lay-flat when fully reclined
2. Wood frame interchangeable with Rocker / Lift / Glider series
3. KD back brackets allow easy back removal for handling and transportation
4. Available in sizes 0/-1/-2/-3/-4

3101 (Manual)
3021D / 3031D (Power)

Relax Chair

3101 (Manual)

3021D / 3031D (Power)

1. Pneumatic control, the backrest can be paused at any position
2. KD armrest brackets optional, to ease handling and transportation
3. Higher lumbar support thanks to a higher backrest connection to the seat cushion
4. Unique backrest design prevents clothes from pulling and better lumbar support

1. Dual-motor (3021D) and triple-motor (3031D) systems
2. Compatible with manual or power headrest
3. Extended footrest and elevated design
4. Back, arm and base options available

1101 (Headrest)

Headrest & Lumbar

1. Increased stability with center drive
2. Wide angle rotation for extra headrest tilt
3. Anti-pinch design
4. Allows very slim backrest design
5. Available in different width sizes

2313A (Headrest)

1. Economical design, one-side drive
2. Reinforced crossbar optional
3. Wide angle headrest
4. Anti-pinch design
5. Available in different width sizes

2316A (Headrest)

1. Increased stability with center drive
2. Anti-pinch design
3. All visible parts are chrome-plated
4. Headrest height raised
5. Available in different width sizes

2812 (Lumbar)

Headrest & Lumbar

1. Increased stability with center drive
2. Allows very slim backrest design
3. Simple design, easy to install
4. Lumbar support stroke: 65mm Max
5. Available in different width sizes

2523B (Headrest & Lumbar)

1. Headrest (2314) & Lumbar (2812) split design
2. Increased stability with center drives
3. Allows very slim backrest design
4. Simple design, easy to install
5. Available in different width sizes

1401 / 1501 (Headrest & Lumbar)

1. Integrated dual-motor headrest and lumbar system
2. Increased stability with center drives
3. Wide angle rotation for extra headrest tilt
4. Anti-pinch design
5. Available in different width sizes
6. Headrest bracket regular (1501) and extended (1401) versions

Air Massage System

System Solutions

- 1. Manual / Automatic mode
- 2. Timed automatic shutdown
- 3. Silent inflation & deflation
- 4. Simulates the feeling of a real hand massage
- 5. Customizable

3 Massage Modes

Alternated

Pulse

Wave

- The air massage will automatically turn off after 45 minutes.
- The heating pad will automatically turn off after 30 minutes.

Immersive Audio System

System Solutions

- 1. Integrated control system for full control of smart sofa functions
- 2. Bluetooth® 5.0 audio media control
- 3. Sync mode: cascade multiple sofas for synchronized audio media playback
- 4. Wireless, USB-A+C, multiple charging options available
- 5. Independent child lock safety feature
- 6. Sofa control functionality for adjusting multiple motors
- 7. Optional control panel functions, suitable for various sofa types

JLDK.56

1. Power: 10W / 15W
2. Panel color: Black / Silver / Wood Grain
3. The regular console can be upgraded to a power console, and use a hidden cupholder for a tidier and cleaner look

JLDP.14.028

1. Double-sided design, compatible with different types of containers
2. Cupholder ambient light
3. Customizable exterior color options

Bluetooth® Box
JLDP.05.065

1. Bluetooth® 4.2 technology: lower power consumption, less radiation and faster response time
2. Multiple memory positions
3. Smartphones and tablets compatible, user-friendly and intuitive app, customizable interface
