

SEATING SYSTEMS

Better Components, Better Furniture

One-stop Solution for Motion Furniture

Our customers success is our success

Close cooperation and quick communication to provide customers with expert consulting sales service. Focusing on customer needs, we provide professional product services and one-stop solutions for motion furniture.

SERVICE AROUND THE WORLD

OKIN has locations in 27 countries and regions around the world, to provide more localized services to customers worldwide.

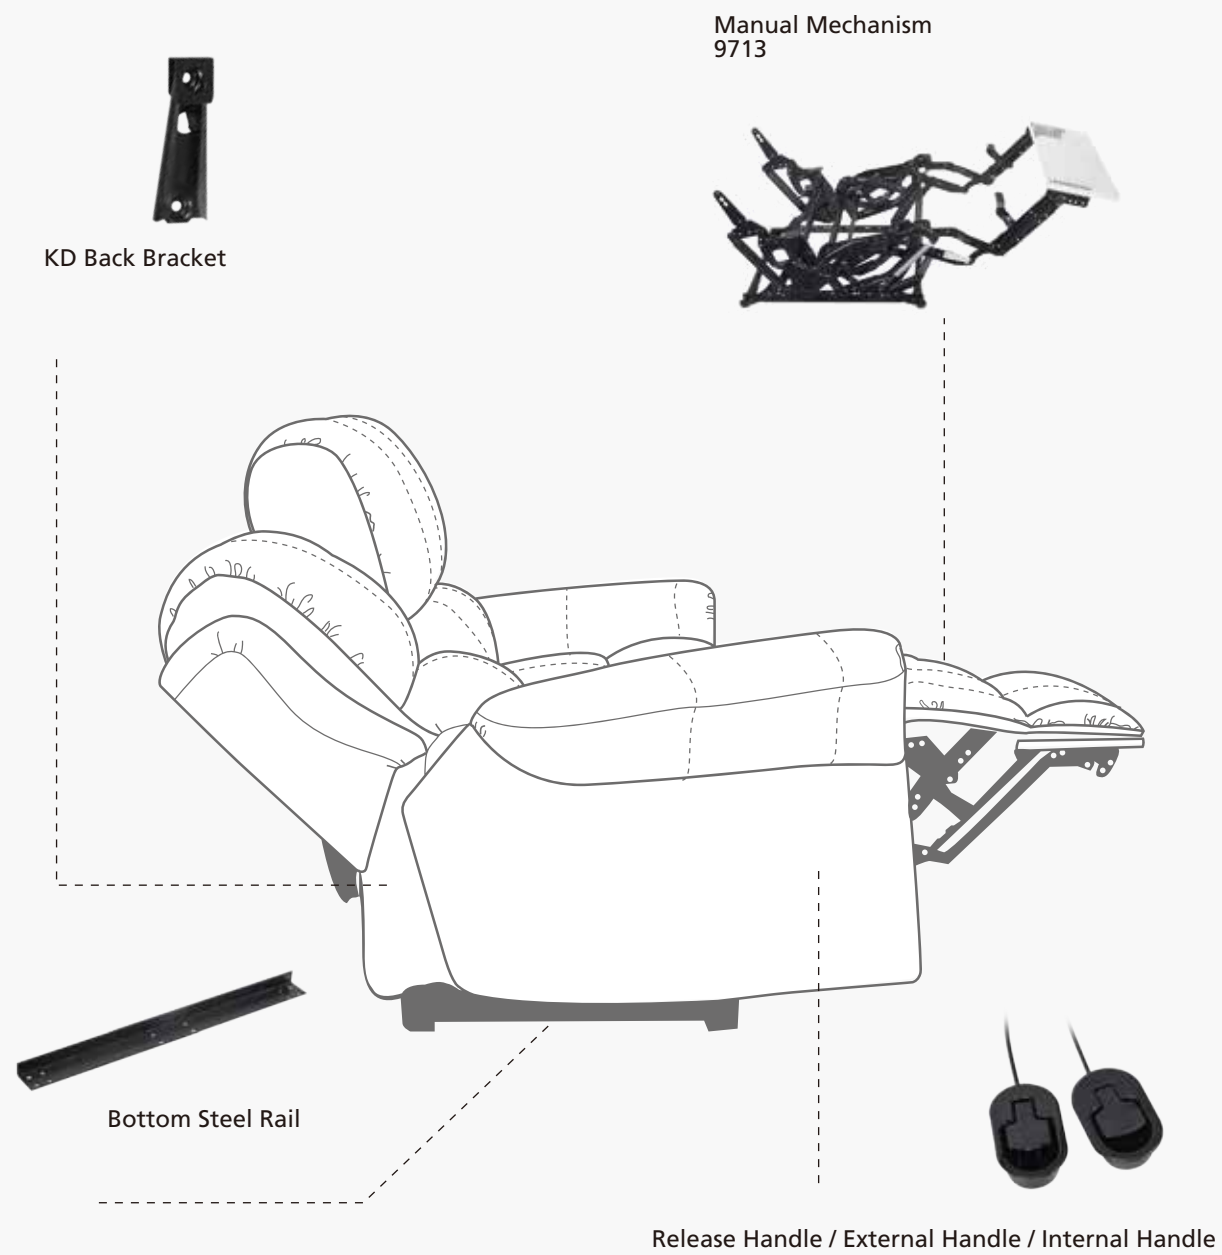

Approved by authoritative certification institutions

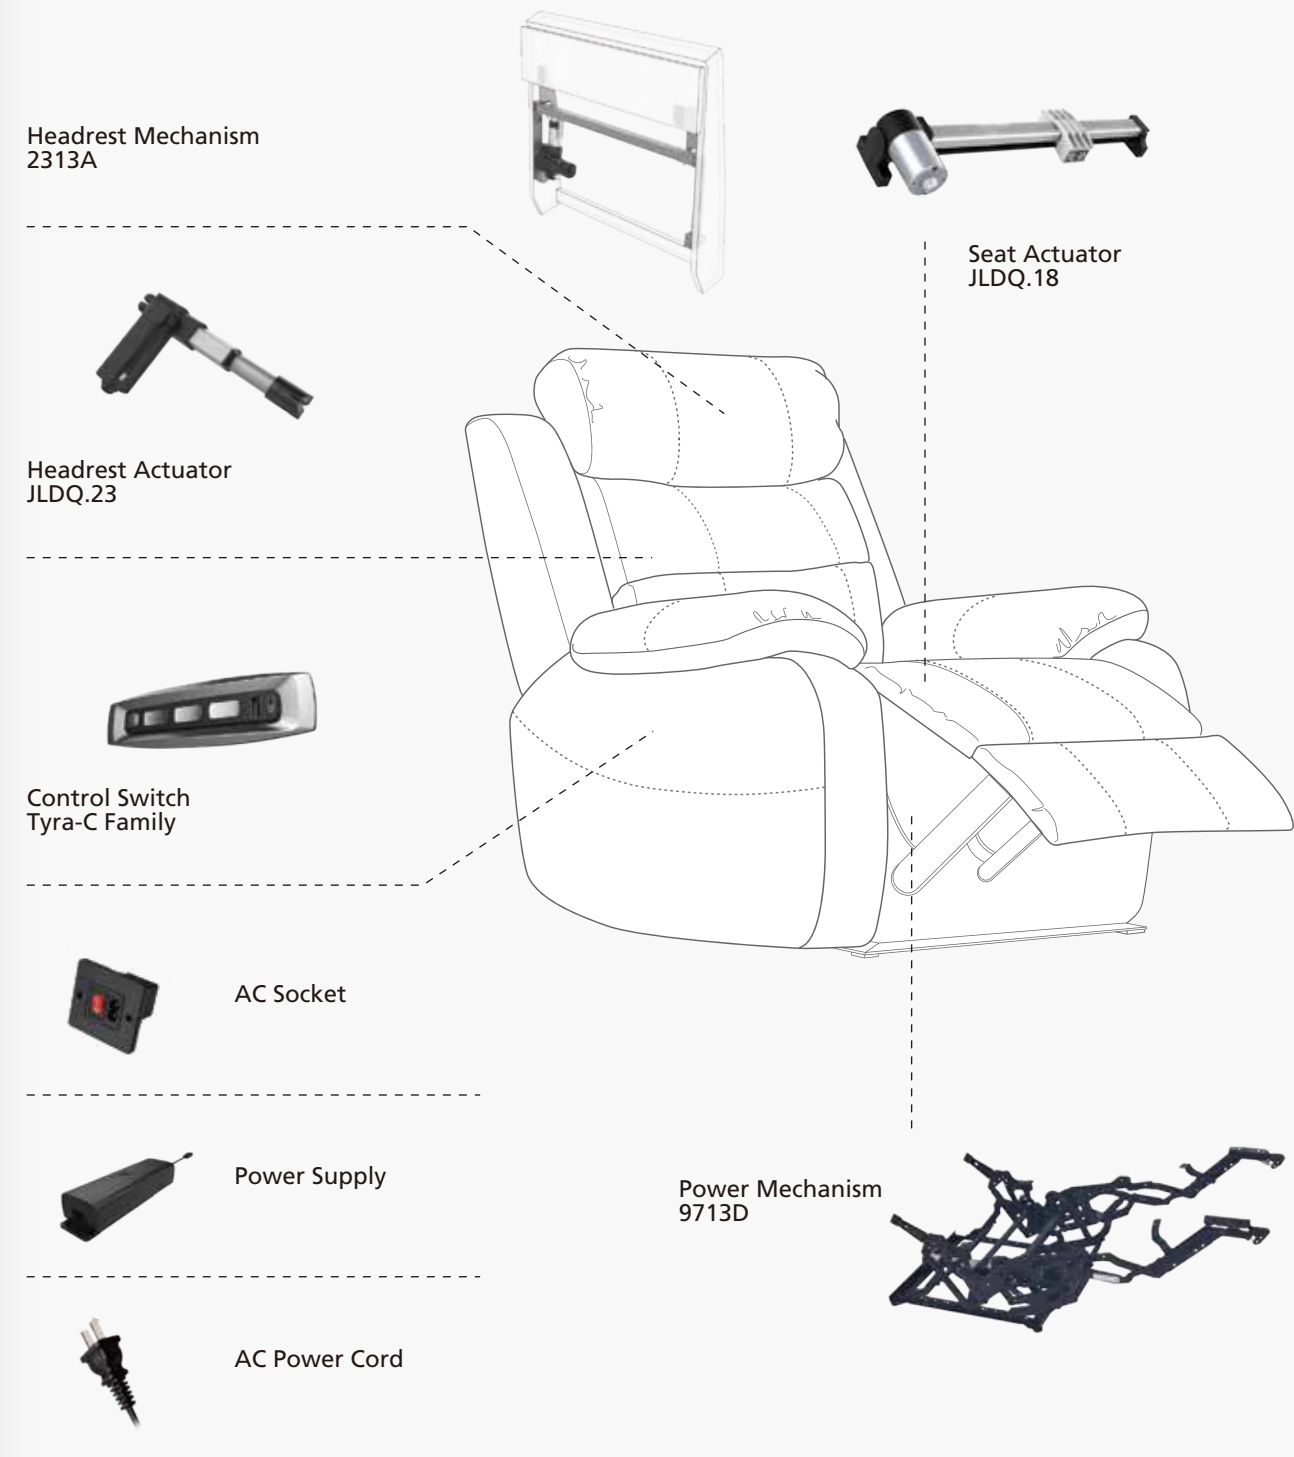

System Solutions for Smart Seating

Manual recliner system

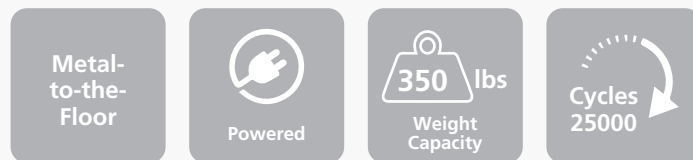

Power recliner system

Mechatronics®

9718DX (Power)

1. The innovative design of Mechatronics® is integrated on the basis of metal-to-the-floor mechanism
2. Wood frame interchangeable with Rocker/Glider/Lift Chair series
3. Large diameter crossbar and long-lasting rivet joints
4. KD back brackets allow easy back removal for handling and transportation
5. Available in different seat width sizes

Application:

Single

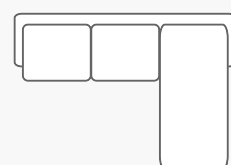

Loveseat

Sofa

Sectional

2528 (Headrest & Lumbar)

1. Actuators all mounted at the center of back for a steady movement
2. Integrated headrest and lumbar for easy assembly
3. Headrest (2320) or Lumbar (2820) can be used individually
4. Available in different seat widths and adjustment angles

Can replace Metal-to-Floor Mechanisms

Metal-to-the-Floor

9001D True Zero Wall (Power)

1. The backrest leans completely against the wall, with zero distance
2. Unique backrest design prevents clothes from pulling and provides better lumbar support
3. Ingenious patented design to prevent the deformation
4. Large diameter crossbar and long-lasting rivet joints
5. KD back brackets allow easy back removal for handling and transportation
6. Available in standard and custom sizes

Application:

Single

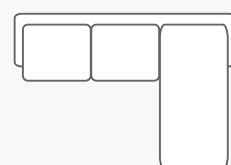

Loveseat

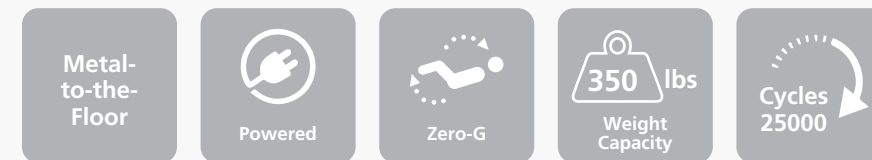

Sofa

Sectional

9011DN Zero Gravity (Power)

1. Zero Gravity position simulates the absence of gravity in the space
2. The legs are slightly higher than the heart to reduce the pressure on the body and achieve extreme comfort
3. Large diameter crossbar and long-lasting rivet joints
4. KD back brackets allow easy back removal for handling and transportation
5. Available in standard and custom sizes

Application:

Single

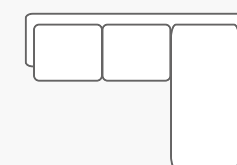

Loveseat

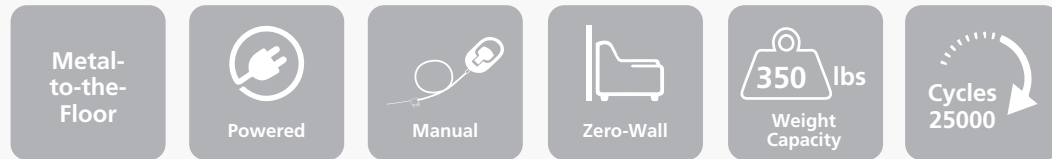

Sofa

Sectional

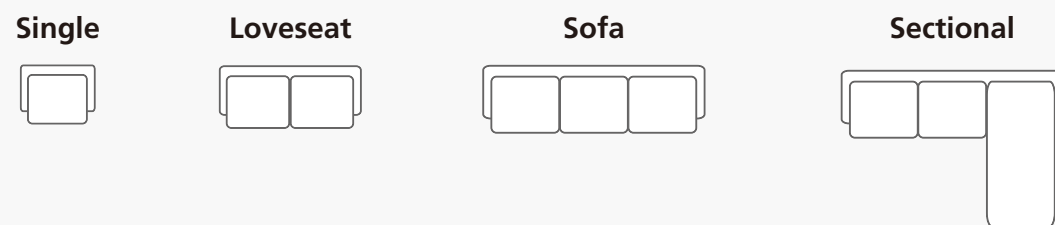

**9713 / 9713D (Manual / Power)
9713DX Quick-install (Power)**

1. 9713 (Manual) and 9713D (Power) versions with standard installation processes
2. 9713DX Quick installation design, higher efficiency
3. Ingenious patented design to prevent the deformation
4. Wood frame interchangeable with Rocker/Glider/Lift Chair series
5. Large diameter crossbar and long-lasting rivet joints
6. KD back brackets allow easy back removal for handling and transportation
7. Available in standard and custom sizes

Application:

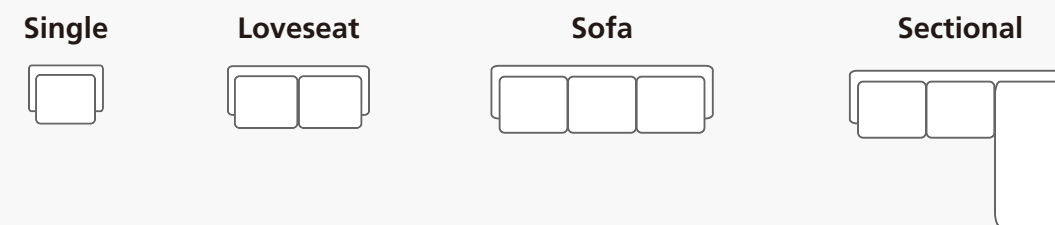

9145D Low-Seat True Zero-wall (Power)

1. The backrest leans completely against the wall, with Zero distance
2. Unique backrest design prevents clothes from pulling and provides better lumbar support
3. Seat height compression design, reduced by 50mm
4. Large diameter crossbar and long-lasting rivet joints
5. KD back brackets allow easy back removal for handling and transportation
6. Available in standard and custom sizes

Application:

905 / 906 Rocker (Manual)

1. Ingenious patented design to prevent the deformation
2. Wood frame interchangeable with Zero-wall/Glider/Lift Chair series
3. Large diameter crossbar and long-lasting rivet joints
4. KD back brackets allow easy back removal for handling and transportation
5. Cable / Handle / Lever available as activating options
6. Available in 7 standard and custom sizes

Application:

Single

Loveseat

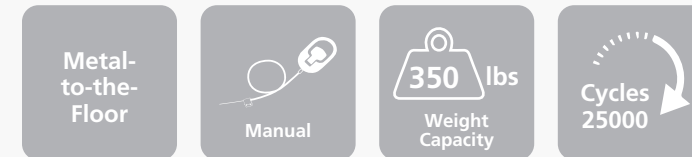

Sofa

Sectional

907 / 908 Glider (Manual)

1. Ingenious patented design to prevent the deformation
2. Wood frame interchangeable with Zero-wall/Rocker/Lift Chair series
3. Large diameter crossbar and long-lasting rivet joints
4. KD back brackets allow easy back removal for handling and transportation
5. Cable / Handle / Lever available as activating options
6. Available in 7 standard and custom sizes

Application:

Single

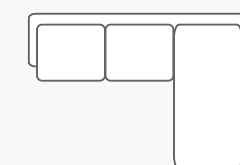

Loveseat

Sofa

Sectional

Wood-to-the-Floor

5216D / 5217D Zero Gravity (Power)

1. High-leg (5216D) and Low-leg (5217D) Zero Gravity recliners
2. Zero Gravity position simulates the absence of gravity in the space
3. The legs are slightly higher than the heart to reduce the pressure on the body and achieve extreme comfort
4. New linkage drive design provides a stable and smooth movement
5. KD back brackets allow easy back removal for handling and transportation
6. Available in standard and custom sizes

Application:

Single

Loveseat

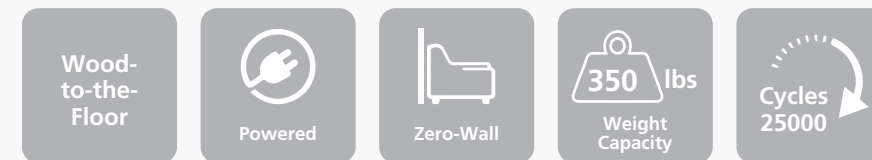

Sofa

Sectional

5810D High-leg (Power)

1. Suitable for low seat high-leg armchairs and sofas
2. Seat height compression and seat depth increase design
3. New linkage drive design provides a stable and smooth movement
4. KD back brackets allow easy back removal for handling and transportation
5. Available in standard and custom sizes

Application:

Single

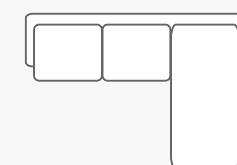

Loveseat

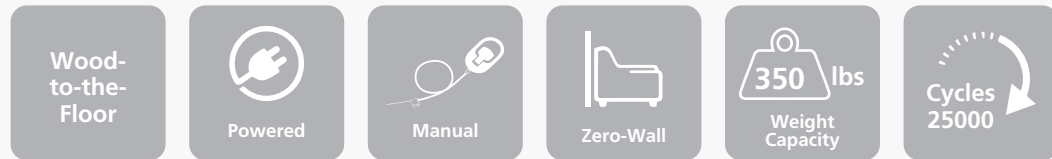

Sofa

Sectional

5368 / 5368D Low-leg (Manual / Power)

1. Suitable for low-leg armchairs and sofas
2. Manual (5368) or Power (5368D) versions available
3. Spring loaded footrest enhances safety throughout the movement.
4. New linkage drive design provides a stable and smooth movement
5. KD back brackets allow easy back removal for handling and transportation
6. Available in standard and custom sizes

Application:

Single

Loveseat

Sofa

Sectional

5198D High-leg True Zero Wall (Power)

1. Suitable for high-leg armchairs and sofas
2. The backrest leans completely against the wall, with zero distance
3. Unique backrest design prevents clothes from pulling and provides better lumbar support
4. New linkage drive design provides a stable and smooth movement
5. KD back brackets allow easy back removal for handling and transportation
6. Available in standard and custom sizes

Application:

Single

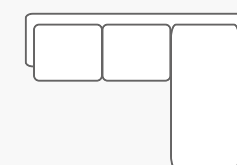

Loveseat

Sofa

Sectional

516DN High-leg (Power)

- 1. Suitable for high-leg armchairs and sofas
- 2. Compressed design for lower seat height
- 3. New linkage drive design provides a stable and smooth movement
- 4. KD back brackets allow easy back removal for handling and transportation
- 5. Available in standard and custom sizes

Application:

Single

Loveseat

Sofa

Sectional

517D Low-leg (Power)

- 1. Suitable for low-leg armchairs and sofas
- 2. Compressed design for lower seat height
- 3. New linkage drive design provides a stable and smooth movement
- 4. KD back brackets allow easy back removal for handling and transportation
- 5. Available in standard and custom sizes

Application:

Single

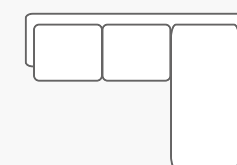

Loveseat

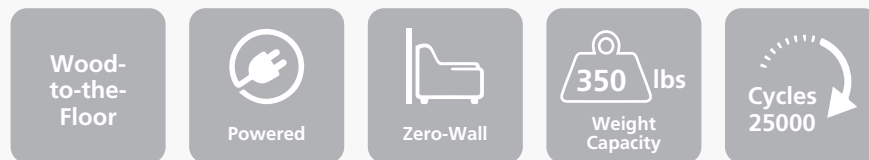

Sofa

Sectional

512D (Power)

1. Suitable for low-leg armchairs and sofas
2. Footrest extension for fixed seat and backrest designs
3. New linkage drive design provides a stable and smooth movement
4. To ease transportation, KD back brackets can be added as an optional
5. Available in standard and custom sizes

Application:

Single

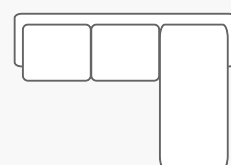

Loveseat

Sofa

Sectional

7550 (Manual)

1. Push the armrest and lean back to open
2. Self-balancing design, the backrest can be stopped at any position
3. High-leg design
4. Footrest extension for more comfortable leg support
5. KD back brackets allow easy back removal for handling and transportation

Lift Chair

6111D

1. Single motor system
2. Smooth lifting process
3. Wood frame interchangeable with Zero-wall/Rocker/Glider series
4. KD back brackets allow easy back removal for handling and transportation
5. Available in sizes 0/-1/-2/-3/-4

6311D

1. Dual-motor system
2. Independent backrest design, close to lay-flat when fully reclined
3. Wood frame interchangeable with Zero-wall/Rocker/Glider series
4. KD back brackets allow easy back removal for handling and transportation
5. Available in sizes 0/-1/-2/-3/-4
6. Optional version with casters (6511D), easy to move

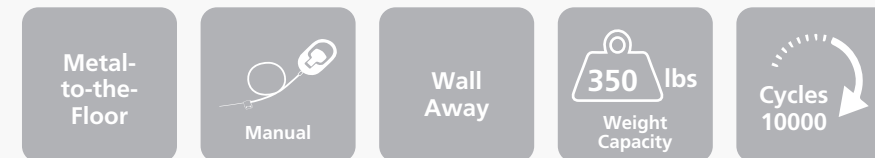

Relax Chair

3021D / 3031D (Power)

1. Dual-motor (3021D) and three-motors (3031D) systems
2. Manual (3021D) or power (3031D) headrest
3. Higher and longer leg support
4. Back, arm and base options available

3101 (Manual)

1. 360° swivel movement
2. Pneumatic control, the backrest can be paused at any position
3. KD armrest brackets option, to ease handling and transportation
4. Higher lumbar support thanks to a higher backrest connection to the seat cushion
5. Unique backrest design prevents clothes from pulling and provides better lumbar support

Headrest & Lumbar

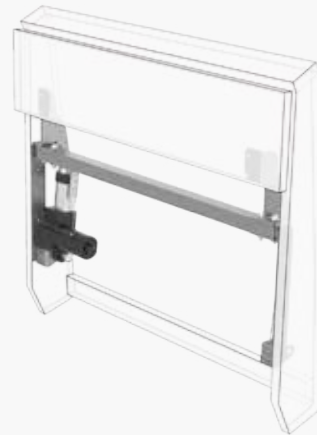

1101 (Headrest)

1. Increased stability with center drive
2. Wide angle rotation for extra headrest tilt
3. Anti-pinch design
4. Allows very slim backrest design
5. Available in different width sizes

2313A (Headrest)

1. Economical design, one-side drive
2. Reinforced crossbar optional
3. Wide angle headrest
4. Anti-pinch design
5. Available in different width sizes

2316A (Headrest)

1. Increased stability with center drive
2. Anti-pinch design
3. All visible parts are chrome-plated
4. Headrest height raised
5. Available in different width sizes

2812 (Lumbar)

1. Increased stability with center drive
2. Allows very slim backrest design
3. Simple design, easy to install
4. Lumbar support stroke: 65mm Max
5. Available in different width sizes

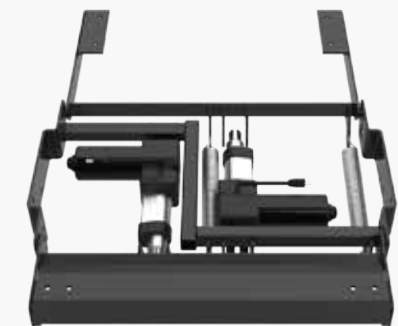

2523B (Headrest & Lumbar)

1. Headrest (2314) & Lumbar (2812) split design
2. Increased stability with center drives
3. Allows very slim backrest design
4. Simple design, easy to install
5. Available in different width sizes

1401 / 1501 (Headrest & Lumbar)

1. Integrated dual-motor headrest and lumbar system
2. Increased stability with center drives
3. Wide angle rotation for extra headrest tilt
4. Anti-pinch design
5. Available in different width sizes
6. Headrest bracket regular (1501) and extended (1401) versions

Actuators

JLDQ.18

Input voltage	29V DC
Max. Load Capacity	3000N (Push) / 2000N (Pull)
Stroke	20 - 500mm
Min. install size	≥ Stroke + 115mm
Duty cycle	1 min on / 8 min off

JLDQ.27

Input voltage	29V DC
Max. Load Capacity	6000N (Push) / 3000N (Pull)
Stroke	20-500 mm
Min. install size	≥ Stroke + 138 mm
Duty cycle	1 min on / 8 min off

JLDQ.23

Input voltage	29V DC
Max. Load Capacity	2500N (Push) / 1500N (Pull)
Stroke	20 - 300mm
Min. install size	≥ Stroke + 100mm
Duty cycle	1 min on / 8 min off

JLDQ.20

Input voltage	29V DC
Max. Load Capacity	4000N (Push) / 2000N (Pull)
Stroke	20 - 400mm
Min. install size	≥ Stroke + 130mm
Duty cycle	1 min on / 8 min off

JLDQ.19B

Input voltage	29V DC
Max. Load Capacity	4000N (Push) / 3000N (Pull)
Stroke	20 - 500mm
Min. install size	≥ Stroke + 150mm
Duty cycle	1 min on / 8 min off

JLDQ.19

Input voltage	29V DC
Max. Load Capacity	6000N (Push) / 3000N (Pull)
Stroke	20 - 350mm
Min. install size	≥ Stroke + 150mm
Duty cycle	1 min on / 8 min off
